CLAIMS 1-15 ARE PRESENTED FOR EXAMINATION

Applicants' Preliminary Amendment filed April 26, 2004 and Information Disclosure Statement filed July 26, 2004 have been received and entered into the application. Accordingly, claims 1, 9, 11 and 15 have been amended. Also, as reflected by the attached, completed copies of form PTO-1449 (5 pages), the cited references have been considered.

Specification

The disclosure is objected to because of the following informality:

The first paragraph of the first page of the specification should be amended to include "This application is a continuation of U.S. Application Serial No. 10/256,221, filed September 26, 2002, now U.S. Patent No. 6,706,686".

Appropriate correction is required.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,706,686. Although the

Art Unit: 1614

conflicting claims are not identical, they are not patentably distinct from each other because given that both the present claims and the patented claims contain the therapeutic objective component of heart failure, one could not practice the invention of the patented claims without also practicing the invention of the present claims.

None of the claims are allowed.
